Select 3D models from the model repository.

- Employee Management WebApp

Mar 2021

<https://github.com/nayan94265/employee-management>

This the project which I developed for my 2nd year CSI DBMS project. Using

basic html, javascript , php , mysql , css. Admin can update , delete ,add

employee details. I had also views and triggers available in mysql.

- Eskaytech WebApp

Sep 2021

ReactJs

<https://github.com/nayan94265/eskaytech>

Its a simple website which I am creating for my friends brother who is a civil engineer.

- Vmeet-video calling application

Jul 2021

Socket.io

<https://github.com/nayan94265/Vmeet>

This project is under development but the core feature of the video calling app

which is calling and the other users stream(video ,voice),is working perfectly

only thing I am left is with beautifying its UI
